

COPYRIGHT LITIGATION

Brand Protection

The Barnes & Thornburg IP litigation group has participated in a number of copyright litigations, including software, music recordings, music compositions, web sites, photographs, books, and articles. We have represented copyright owners claiming infringement and those defending against claims of infringement.

The copyright laws of the United States and other countries impose special requirements relating to burdens of proof, procedures, and other matters. Thus, litigation in this area is more than just a form of contract or tort litigation. It requires particular knowledge and experience.

Why Barnes & Thornburg?

Finding new ways to help clients identify solutions and new business opportunities, across industries, is at our core. We are, at times, more than lawyers, we are advisers bringing new ideas to light. We understand what keeps you up at night and work collaboratively to find practical and creative solutions, at the heart of business.
