

HOSPITALS AND OTHER HEALTHCARE PROVIDERS

Better Health

Our skilled team has experience representing healthcare systems, hospitals and specialty clinics, long-term and hospice care facilities, retail and wholesale pharmacies, and physician groups on a wide range of matters involving regulatory compliance, Medicare and Medicaid reimbursement, HIPAA, fraud and abuse, transactions, and government investigations.

What makes Barnes & Thornburg's team stand out is its deep industry knowledge, paired with practical and innovative legal advice. We have worked in-house in the healthcare industry as lawyers and providers, know our clients' objectives, and advise accordingly based on risk tolerance and business goals.

Our clients rely on us for problem-solving guidance when advising on Medicare and Medicaid rules, state and federal health regulations, and the continuing changes to the Affordable Care Act. We also have substantial experience working with the insurance and self-funded benefit plans that reimburse providers.

We help clients establish and maintain compliance programs; buy, sell and merge; conduct internal investigations; defend and respond to government and payor audits; address antitrust matters; and defend whistleblower qui tam actions. We also advocate for clients in federal and state false claims investigations.

Practice Leaders

2023 Annual Healthcare Enforcement and Compliance Report

An overview of the latest and most significant FCA developments, enforcement trends, civil and criminal actions, industry guidance, and government policy updates from Barnes & Thornburg's Healthcare Industry Practice.
