

BOND, DEBT AND STOCK ISSUANCES

Bright Ideas

To serve utility clients - financing needs, our energy and utility attorneys works closely with the firm's Corporate, Tax and Real Estate departments and the Government Services and Finance Department to provide representation for public utilities and municipal utilities in a wide range of financing transactions, including bond issues, public offerings and private placements.

We advise on compliance with federal and state securities law reporting requirements, as well as on resolution of federal-state jurisdictional conflicts. Where necessary, we represent clients in seeking regulatory approvals.
