

LOCATIONS

New Jersey

Our team of talented attorneys focuses on high-profile mass tort, product liability, and class action suits, as well as complex litigation, healthcare and life sciences counseling, and cross border disputes. Our international and domestic clients are further supported by professionals with robust healthcare regulatory compliance and fraud capabilities – including a former Assistant Chief for Healthcare Fraud at the DOJ and lead prosecutor for the Medicare Fraud Strike Force – and sophisticated counsel in complementary practice areas, such as white collar, compliance, and investigations; financing and investment transactions; fund formation; and intellectual property and antitrust, among others.

We bring our national, full-service platform to bear in delivering innovative solutions to clients in this dynamic region and collaborate with a deep bench of attorneys from offices across the country – including an expanding presence in New York, Philadelphia, Boston, Delaware, and Washington, D.C. – to offer first-rate client service, in the boardroom and the courts.

Our top priority is to help clients meet their business goals and resolve their legal challenges by providing timely services and experienced and creative counsel.
