## Watch On Demand

Not surprisingly, our recent “How To” webinar on how employers should handle vaccination policies and practices in light of the COVID-19 pandemic generated more questions than we could answer in an hour! Since then, vaccines continue to roll out, more employers are making decisions about their approach, and state and federal guidance continues to evolve.

This session will be solely dedicated to answering your questions with updated general information about this emerging workplace safety dilemma. Join us as you continue to consider and fine tune your strategy.

You may ask questions during the Q&A or submit them when you register.

**1.0 hour CLE credit pending and 1.0 hour of HRCI credit approved. This program is valid for 1.0 PDCs for the SHRM-CP® or SHRM-SCP®.**
