Officer
Scioto
Biosciences, Inc.

Developing new medicines is a complicated and rapidly evolving process.

At any point, there is a wide range of new technologies to choose from, but finding good manufacturing partners willing to innovate along with you can be a

challenge. Please join us for this month's program looking at some exciting new drug technologies developed by Hoosier companies. Hear their stories on their paths to market and learn how finding the right partners can lead to better, safer, and more effective care for patients.

There will not be a Zoom option for this session.

Networking and lunch begin at 11:30 a.m. and the program begins at noon.

Questions? [Email Blakelee Kortz](#) or call 317-231-7316.
