

Ann Grayson is a partner in the Litigation Department of Barnes & Thornburg's Indianapolis office. She focuses her practice in e-discovery and knowledge management, which includes virtually all aspects of electronic discovery, records and information management, and data protection and privacy issues.

Ann's more than 20 years of experience allows her to design practical solutions for the complicated challenges faced by her clients, while minimizing and managing future risk and cost. She has authored and co-authored related publications and speaks on topics such as knowledge management, e-discovery and emerging technologies.

Some of Ann's recent work experience includes:

- Managing all aspects of e-discovery in the context of single plaintiff, class action and complex multidistrict litigation
- Leveraging technology-assisted review and other data analytics to reduce data processing, review and production costs
- Acting as e-discovery counsel in partnership with merits counsel in a myriad of matters, including marital dissolution, FERC litigation, insurance claims, product liability and intellectual property
- Advising multinational corporations on U.S. litigation readiness and data privacy compliance strategies
- Working with clients to develop best practices in knowledge management policies and practices regarding all types of corporate data including emerging technologies such as mobile devices, social media and collaboration tools
