In alignment with Indiana University's 2030 Strategic Plan, the vision to transform Indiana University Indianapolis (IUI) into the state's next-generation, urban, comprehensive research university campus is coming to life.

Given the proximity to so many of the state's life sciences assets and being the home of the IU School of Medicine, the Indianapolis campus will feature a

heavy emphasis on biomedical research. Please join us as we learn more about the plans for IUI!

There will not be a Zoom option for this session. Come join us in person for a special gift to help you celebrate the last days of 2023.

Networking and lunch begin at 11:30 a.m. and the program begins at noon.

Questions? [Email Blakelee Kortz](#) or call 317-231-7316.
