WEBINARS

Navigating Multifamily Radon Policies - A Comprehensive Discussion

DATE

February 20, 2024
2 p.m.-3:30 p.m. (Eastern)

SPEAKERS

David R. Gillay
Partner

Kyle Hoylman
CEO
Protect
Environmental

Join us for an insightful webinar addressing the critical issue of radon exposure in multifamily buildings, a leading cause of lung cancer responsible for over 21,000 annual deaths.

This radioactive gas, prevalent in many properties, demands attention to mitigate health risks and navigate liability challenges.

Key Topics

Radon Overview

- Understand the prevalence of radon and its impact on health
- Explore the substantial costs associated with treating radon-induced lung cancer

HUD Multifamily Radon Policy

- Examine HUD's 2013 policy requiring full building characterization for radon potential
- Gain insights into mitigation actions for identified radon concentrations
- Understand ongoing requirements for building maintenance and monitoring

GSEs (Fannie Mae and Freddie Mac) Policy

- Delve into the GSEs' multifamily radon policy implemented in July 2023
- Focus on limited building characterization and specific mitigation actions
- Understand key differences from HUD's policy and their implications

Liability and Health Equity Challenges

- Analyze significant differences between HUD and GSE policies
- Explore implications for liability and health equity challenges in multifamily buildings
- Understand the responsibilities of stakeholders in managing these challenges

State Regulations

- Learn about the role of states in regulating radon exposure in multifamily buildings
- Explore how state regulations influence policy implementation

Don't miss this opportunity to gain valuable insights and strategies for addressing multifamily radon challenges. Register now to secure your spot!
