This webinar will address the best practices and creative solutions in managing employee separations – including executives – to reduce legal and business risks.

Our presenters, who have more than 48 years of combined experience in advising businesses on employment and benefit issues, will cover:

- Separation strategies: planning ahead
- Essential elements: drafting separation and release agreements, including restrictive covenants
- Technical traps: navigating IRC Section 409A, and health and welfare benefits
- Coordinated communications: internal and external
