Partner

Chris Atkinson
Vice President, Engineering
SEP

Gretchen Bowker
Chief Executive Officer
Pearl Pathways

Kristin Jones
President and CEO
Indiana Health Industry Forum

Matt Dressler
Funds Manager
Purdue Innovates

Many healthcare problems can be solved with better data, metrics, and/or communication, but not all apps and software are created equally in the eyes of the FDA.

Understanding whether your software meets the definitions for a medical device and planning your design accordingly can make for a much smoother

path to market. Please join us as our panel discusses the SaMD regulatory requirements, outlines the development pathway, and shares their experience getting an IT product into the hands of and onto the devices of healthcare users.

Networking and lunch begin at 11:30 a.m. and the program begins at noon. There will not be a Zoom option for this session.

Questions? Email Blakelee Kortz or call 317-231-7316.
