TerraLex Connections - "The Federal Circuit Holds In In Re Cuozzo Speed Technologies LLC That It Lacks Jurisdiction Over Inter Partes Review Appeals And Affirms 'Broadest Reasonable Interpretation' Standard For Patent Claim Construction"

June 22, 2015

Brad Olson of the Washington, D.C., office authored an article for TerraLex Connections. The article, "[The Federal Circuit Holds in In Re Cuozzo Speed Technologies LLC that it Lacks Jurisdiction over Inter Partes Review Appeals and Affirms 'Broadest Reasonable Interpretation' Standard for Patent Claim Construction](#)," focused on the inter partes review procedures established by the American Invents Act.
