A company sued at the International Trade Commission (ITC), or one that finds one or more of its suppliers sued there, may have many questions during the 30 days between the filing of the complaint and when the ITC starts the case.

In this webinar, we will discuss such time-sensitive issues as:

- Internal steps to consider
- Indemnification by suppliers
- Discovery
- Finding experts
- Redesigns

We will delve into these and myriad other issues that should be addressed in parallel during this proverbial calm before the storm (that is anything but).

The webinar will feature a Q&A session. You may ask questions during the Q&A or submit them when you register.

1.0 hour CLE credit pending.
