SEMINARS

Life Sciences Lunch: The Data Driving Diabetes Discovery

DATE

**September 17, 2019
11:30 a.m. - 1 p.m.
(Eastern)**

LOCATION

**Barnes & Thornburg
11 S. Meridian Street,
Auditorium
Indianapolis, IN 46204**

The Indiana Biosciences Research Institute (IBRI) is working to tackle many of the health challenges related to cardio metabolic disease using resources and stimulating collaborations here in the state.

Importantly, it is our own population health data that is informing much of the new research that IBRI is exploring in the life sciences ecosystem with our Indiana partners and beyond. Please join us as we take a look at the data's origins and implications, the key organizations and people engaged in the research, and the advanced analytical tools and computing resources that are being applied to the challenge.

Presenters

Dan Robertson, Research Fellow, VP of Digital Technology, and Director of Applied Data Sciences, IBRI

Josie Fasoldt, Senior Director of Analytics and Engagement, Indiana Management Performance Hub

Keith Kelly, Chief Operating Officer, Indiana Health Information Exchange

Moderator

Kristin Jones, President and CEO, Indiana Health Industry Forum
