Has your business considered the potential implications of labeling and advertising products as "natural," "clean," "responsibly sourced," or other similar phrases?

Consumer class action litigation involving products made with certain chemicals, including PFAS, is on the rise, targeting businesses across the clothing, cosmetic, food and beverage, and restaurant industries and more.

To keep you up to date on this evolving issue, speakers from the firm's Consumer Class Action Defense and Insurance Recovery and Counseling practices will provide valuable information on the:

Increase of these cases

RELATED PRACTICE AREAS

Consumer Class Action Defense Litigation

RELATED INDUSTRIES

Agriculture and Food Manufacturing

- Claims brought against companies in PFAS consumer class actions
- Types of relief sought

They also will discuss the defenses businesses can consider using to protect themselves against these claims and how businesses can recover insurance to offset the costs of defending them.

1.5 hours CLE credit pending.
