

LOCATIONS

Raleigh

Raleigh-Durham has been named the top Life Science Cluster in the United States and Money magazine ranked it second in its 10 Best Big Cities to Live in Right Now list. Businesses are thriving – and our team of experienced attorneys, Ph.D.s, patent agents and legal professionals plays a large part in their success in the Research Triangle, internationally and across the U.S.

With laser focus, we help companies bring their ideas and innovations to market through effective patent and IP strategies, regulatory guidance and dispute resolution.

Our full-service law firm also advises the multinational pharmaceutical, biotechnology, high-technology, and software companies – along with the thriving startups and mid-size companies – on a wide variety of legal issues. All in the name of helping the region thrive.

We prioritize supporting the communities in which our professionals live and work through volunteer, civic and pro bono activities.
